

My name is Maria Gabriella, I was born in Rome, I'm very proud to be Roman, I love my city, the eternal city is in my heart, it's part of me! My father is Italian, born in Rome and my mother a German girl from Berlin. Two different cities, two different worlds that are mine, in positive as well as in negative aspects.

Life is for me a fantastic journey!

Travel is my passion, I love to visit different places, to taste different types of food...my passion,in 2016 became a job, **Travel Designer**. I Suggest different itineraries far away from the busy crowd, far from the most popular routes,I create alternative tours, in small villages, living as our guest, with the locals, eating the food of your childhood, prepared with organic ingredients, living real experiences of culture, history, nature.

Unique is my motto! Unique with the Nature, with our deep spirit, the spirit of places! Discover the real spirit of Places !!!
